

## **RFP-05-UA-2021**

- 1) CTF 1 - 2 show maximum number of participants as 20 - 30, does this include only Ukrainian students or is this both Ukrainian and US students?

**Answer: 20-30 participants is an overall quantity of participants, including Moldovan and Balkan students and their American competition counterparts.**

- 2) The RFP states CTF topics as forensics, network security and incident response, but can it also include cryptography, security history, and attack methods?

**Answer: Yes it can. But with the short pre-competition theoretical briefing of the mentioned topics.**

- 3) In Task 10.2: it requires a 4-hour workshop to prepare participants for the competition, can that 4 hours be spread over multiple events or does it need to be done all at one time?

**Answer: 4-hours workshop is meant for participants pre-competition theoretical briefing, thus it can be 1 time event, or be spread over the course of the participants stay before the competition.**

- 4) Can commercial solutions be used for the CTF platform scoring system?

**Answer: Yes, commercial solutions can be used for the scoring system.**

- 5) Does the customer have a In Progress Review (IPR) schedule, or will we provide that with our proposal?

**Answer: In Progress Review (IPR) schedule should be provided with the overall proposal.**

- 6) Can the CTF be a combination of Jeopardy style and system hacking?

**Answer: Yes, the CTF can be a combination of Jeopardy style and system hacking.**
